

CLAIM AMENDMENTS

In the Claims: Please amend claims 1, and 3-5 as follows; claim 2 is canceled:

1. (Currently amended) A composition for application on skin, comprising:
 - a) a first component supporting skin collagen structure comprising ectoin ; and
 - b) a second component that supports body defense and repair mechanisms comprising an extract of *Centella asiatica* comprising asiatic acid, madecassic acid, and asiaticoside.
2. (Canceled)
3. (Currently amended) The composition of claim 1 2, comprising about 2% ectoin and 0.3-0.5% *Centella asiatica* extract.
4. (Currently amended) The composition according to claim 1, further comprising a third component that supports skin lipids.
5. (Currently amended) The composition according to claim 4, wherein ~~the first component comprises ectoin; the second component comprises an extract of *Centella asiatica*, and~~ the third component comprises a lipid complex.
6. (Original) The composition of claim 5, comprising about 2% ectoin and 0.3-0.5% *Centella asiatica* extract.
7. (Original) The composition of claim 6, comprising about 1% of the lipid complex.
8. (Original) The composition of claim 5, wherein the lipid complex is isolated from

plants.

9. (Original) The composition of claim 8, wherein the lipid complex comprises phytosterols and triglycerides.
10. (Original) The composition of claim 9, wherein the lipid complex comprises 20% phytosterols, 30% triglycerides, 40% hydrocarbons and branched esters, 10% ceramides and other phytosphingolipids.
11. (Original) The composition of claim 4, further comprising a firming agent.
12. (Original) The composition of claim 11, wherein the firming agent is dipalmitoyl hydroxyproline
13. (Original) The composition of claim 4, wherein the third component comprises a plant extract.
14. (Original) The composition of claim 13, wherein the plant extract comprises glycolipids, fatty acids and triglycerides extracted from sandalwood, cork tree bark, and barley grains.
15. (Original) The composition of claim 4, wherein the product is useful as an eye-firming cream, and the third component comprises a lipid complex.
16. (Original) The composition of claim 15, and wherein the lipid complex comprises a ceramide complex.

17. (Original) The composition of claim 16, wherein the ceramide complex comprises ceramide-3, ceramide6-II, ceramide 1, phytosphingosine and cholesterol.
18. (Original) The composition of claim 16, wherein the composition comprises about 3% of the ceramide complex.
19. (Original) The composition of claim 15, further comprising hesperidin methyl chalcone, dipeptide, and peptide Pal-GQPR.
